Seven Seas has a steel hull with an aluminium superstructure. The blue-hulled vessel accommodates 12 guests in four large guest and two VIP suites. Guest entertainment is paramount onboard, with some impressive entertainment systems installed at the request of the owner: these include a professional projection system with 5m x 2m screen in the salon which, with two rows of raked seating, turns the area into a floating cinema. *Seven Seas* has a maximum speed of up to 20 knots and is operated and manned by 26 crewmembers, including the captain.
