Quattroelle: ultimate charter style on a brand new yacht

As a brand new launch, emerging recently from the Lürssen yard, the 88 metre *Quattroelle* is the epitome of luxury yachting and an exciting addition to the global charter fleet. With her svelte exterior lines matched to a luxurious contemporary interior – both realised by Nuvolari Lenard – she

offers sumptuous accommodation for up to 12 guests in six suites, with additional space for four personal staff in two further cabins.

These guests will also be able to enjoy a vast range of amenities and activities, from extensive interior areas and prodigious deck spaces, to a full

dive station and an eight-person spa pool, and from a huge swimming pool with counter current to watersports toys including jet skis, a ski boat and two 10-metre tenders. Guests can also enjoy the full onboard spa and large gym, or perhaps indulge in some pampering in the hair salon and make-up room. For even more leisurely activities, *Quattroelle* features a cinema and an art gallery.

Under power she will cruise at 16 knots, and with a 6,000-mile range offers plenty of scope for exploring. Zero speed stabilisers ensure a smooth passage and a steady anchorage, and for visiting spots where anchoring is forbidden, she is fitted with a full dynamic positioning system.

Now available for charter through Moran Yacht & Ship – which also oversaw her build – she represents the very latest in high-end luxury cruising, and will no doubt provide a charter experience to remember.
