“QUATTROELLE”

The new Luerssen designed by Nuvolari-Lenard

Nuvolari Lenard is proud to announce the “splash-down” of their latest design: the 86 mt. M/Y “Quattroelle” built by Luerssen.

This large yacht is one of our most detailed designs ever, where we defined by scratch its exterior style and its interior and all the details of its hardware.

Knowing very well and since long time his owner, allowed us to tailor design this yacht following precisely his personality and I have no doubt that he will recognize himself when looking to this ship.

Quattroelle infact is a ship . Nothing against the yachts off course but we styled out the vessel keeping in mind two things: we wanted a true piece of italian design , therefore agressive, streamlined and elegant as we imagined our new yacht should

NUVOLARI LENARD™

The interior has been designed keeping in mind the request of having wood as dominant material but not necessarily a “classic” interior. The modern approach , with original design elements, prevails on the classicism wich is only a starting point wich we “used” to develop the style. The materials are rich , the finishing is sophisticated but never excessive or vulgar.

We designed a lot of details expressly designed for this yacht as the Murano Glass chandelier above dining or the bronze railing of the main lobby stair : a true piece of art in its perfect execution.

Everything has been designed on this yacht: we developed uniforms as well and off course designed the two large tenders : a classic limotender and a sleek walkaround, based on the same hull and engineering , so they can be stored on both sides of the yacht on same cradles and share same engine parts.

Italy, September 2012.
